WWF-TSXV

Winfield Resources Limited (“Winfield”, WWF – TSX Venture Exchange) wishes to announce that it has entered into a four well development program with Rideau Petroleums Ltd. (“Rideau”). The four wells are located in the Daly Field, southwestern Manitoba.

Winfield will earn a 30% net working interest by expending 50% of the wells drilling and completion costs. Under negotiated terms, Winfield will receive a 50% net interest in the production until capital payout, then revert to a 30% net working interest in the project.

Drilling and completion costs per well are estimated at approximately \$265,000. Winfield will raise \$530,000 by way a of flow through private placement. Based on current market analysis and oil price forecasts, capital project payout is anticipated within 12 months. Offsetting wells have evidenced production rates of 30 to 50 barrels of oil per day.

Rideau Petroleums Ltd. will act as operator of this four-well drilling program. The wells will produce to Rideau production and storage facilities. The four wells will be drilled to a depth sufficient to test both Lodgepole and Bakken Formations. All four wells will be drilled on leases subject to a 15% royalty. There are no overriding royalties.

Further to production and geological reviews of this project, an infill drilling program on proprietary offsetting acreage may sustain up to 25 infill drilling locations analogous to existing producing wells.

Terms of the Agreement call for the issue of 100,000 Winfield common shares to Rideau and a Finders Fee is payable to an arms length party, subject to the policies of the TSX Venture Exchange.

On Behalf of the Board of Directors,
WINFIELD RESOURCES LIMITED

“Michael Foley” President and CEO
